

BLUEPRINT TO A CIRCULAR ECONOMY MODEL

TRAINING SESSION

25 JANUARY 2023, 13:30-15:30

HOUSEKEEPING

EUROPEAN UNION

BLUEPRINT TO A CIRCULAR ECONOMY

ENABLE LOCAL AUTHORITIES TO ACCELERATE TOWARDS A DYNAMIC CIRCULAR ECONOMY

EQUIP SOCIAL ENTERPRISES AND TRAINING ORGANISATIONS TO SUPPORT DISADVANTAGED PEOPLE TO SECURE JOBS IN THE CIRCULAR ECONOMY SECTOR

ENHANCE COMMUNITY ENGAGEMENT TO DELIVER LASTING BEHAVIOUR CHANGE FOR RESIDENTS AND SCHOOLS

TODAY'S AGENDA

- 1 WELCOME FROM ESSEX COUNTY COUNCIL
- 2 THE BLUEPRINT MODEL
- **3** LOCAL AUTHORITY GUEST SPEAKER
- 4 CIRCULATES
- 5 NETWORKING
- 6 Q&A

A WELCOME FROM ESSEX COUNTY COUNCIL

LEAD PARTNER OF THE BLUEPRINT PROJECT

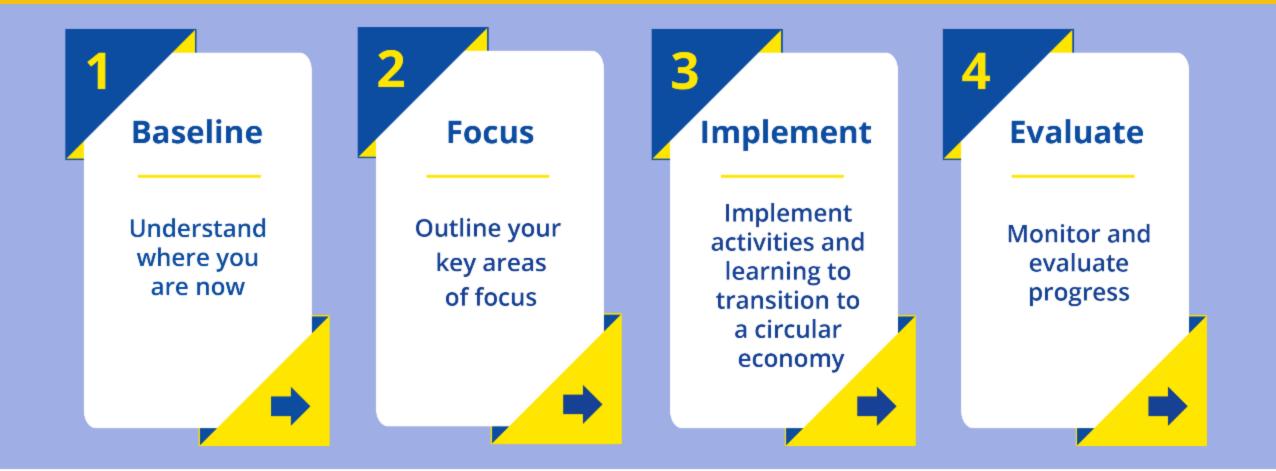

THE BLUEPRINT TO A CIRCULAR ECONOMY MODEL

STEP TWO

BLUEPRINT Baselining Activity - Your results

-Your score after (step 4)

OUTLINE YOUR KEY AREAS OF FOCUS

Sections on how to local authorities can transition to a more circular economy	Your score before (step 1)	Recommendation based on the average score of your responses to each section					
About your organisation	163	Your score for this section indicates that your organisation has already stath integrating circular economy principles into your organisation's vision and prior but you could consider further measures. If you would like to find out more, ple visit the about your organisation page.					
		Visit the above year or governion page: <u>http://proj.ctb/sspint.ssimads//dicabe-score-local</u>					
Procurement	122	Your score for this section indicates that your organisation has already started integrating circular economy principles into procurement practices, but you could consider further measures. It you would like to find out more, please visit the procurement page.					
		Visit the processes page: https://projectioneprior.comade/processment					
Waste management	185	Your score for this section indicates that your organisation has already started integrating discular economy principles into waste management procloes, but you could consider further measures. If you would like to find out more, please visit the waste management page.					
		Visit the works wavegement page: <u>https://projectblogprint.co/model/marte-management</u>					
Training and job opportunities	0.67	Your score for this section indicates that your organisation would benefit from integrating cloular economy principles into training and job opportunities either within your organisation or through external partners. If you would like to find our more, please visit the training and job opportunities page.					
		Visit the training and job opportunities page: <u>https://geojectblespret.es/no.du/itrasing-job;</u> concertables					
Changing behaviours	2.15	Your score for this section indicates that your organisation has successfully started integrating circular economy principles to change behaviours either within your organisation or with residents. Although you are already performing well in this section, you may still find it valuable to view guidance, reports, and case studies to support you further. If you would like to find out more, please visit the changing behaviours page.					
		Visit the changing behaviours page: <u>https://projectblacerist.co/model/clasging-behaviour</u> s					

EUROPEAN UNION

for this section indicates that your organisation has a circular economy principles into your organisation's vision a. could consider further measures. If you would like to find out more, visit the about your organisation page.

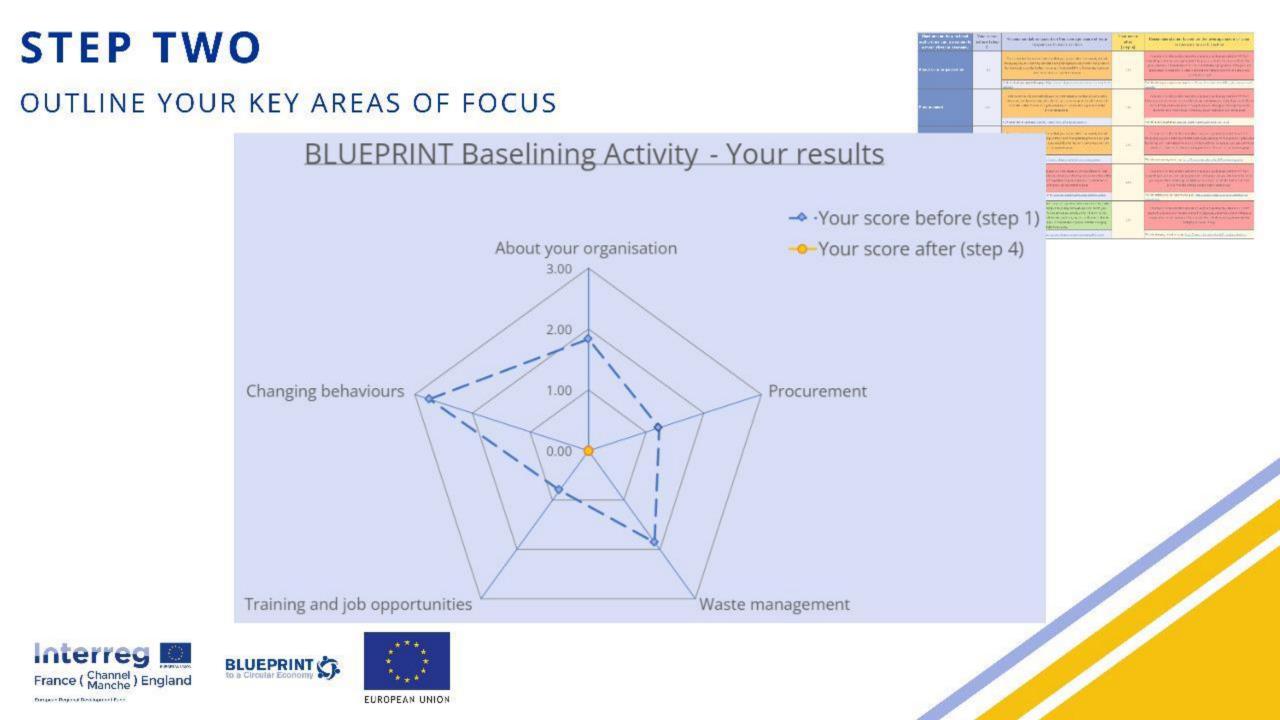

/isit the about you organisation page: https://projectblueprint.eu/model/circular-economy-los uthoritu

Your score for this section indicates that your organisation has already started integrating circular economy principles into procurement practices, but you could consider further measures. If you would like to find out more, please visit the procurement page.

Visit the procurement page: https://projectblueprint.eu/model/procurement

our score for this section indicates that your organisation has already star ating circular economy principles into waste management practices. nsider further measures. If you would like to find out more, plea waste management page.

About BLUEPRINT

The BLUEPRINT to a Circu. Economy Model

Welcome to the BLUEPRINT Model

Who is the BLUEPRINT Model for?

The BLUEPRINT Model supports senior managers, decision-makers, and officers at local auth implement the right policies, strategies and plans to move towards a circular economy. The 4 across the <u>BLUEPRINT to a Circular Economy Project</u>, building on the existing foundation of in economy as easy as possible. It can be used by any local authority in England and France.

How the BLUEPRINT Model can support local authorities

Self-help style guidance will support local authorities to understand how well they are pert opportunities to build greater circularity. The BLUEPRINT Model will provide local authorit them to influence their own policies and strategies, initiate training opportunities for not behaviour change in their residents. Best practice case studies from local authorities we economy, as well as social innovation. Reports from the BLUEPRINT Project, meanwhil the many benefits of a circular economy.

It's recommended that local authority officers using the BLUEPRINT Model have Foundation has excellent resources that you may wish to view before applying

hat is the BLUEPRINT Model?

GUEST SPEAKER

JASON SEARLES, ESSEX COUNTY COUNCIL

EUROPEAN UNION

The Circular Economy at Essex County Council

Jason Searles Head of Waste Strategy and Circular Economy

Embedding Circularity

Corporate Plan EVERYONE'S -Our Plan for Essex: 2021-2025

Essex County Council Environment and Climate Action

Essex Climate Action Plan

Essex County Council's response to Net Zero: Making Essex Carbon Neutral

Climate Action Plan

<u>Climate Commission</u>

Net Zero: Making Essex Carbon Neutral

Essex Climate Action Commission

- Lack of a common understanding of what Circular Economy means
- Need to move quickly if we are to position the Circular Economy as a core part of tackling climate change and delivering economic growth
- Landing circular economy opportunities at a time of financial pressures and multiple competing priorities
- Needs to be embedded with the organisation and everything we do it can't just be delivered by the 'Circular Economy Team'
- Toolkits and decision making processes need to be adapted to build in Circular Economy principles
- How do you measure the impact of circularity in the way the organisation works and in our communities?

Achievements In Essex

People

- Dedicated Circular Economy team
- Created a Circular Economy Hub to map what is already happening
- Create a network for further activity
- Circular Economy training available to all employees

Plans and strategies

- Developing a new, joint waste strategy
- Embedding circular requirements in Procurement, Social value measures and in the way we manage investments and our corporate estate
- Equalities Corporate Impact Assessment updated to consider resource efficiency and Circular Economy

Project delivery

- Waste reduction behaviour change initiatives
- Essex Forest Initiative
- Advice packs to residents, businesses and schools
- Net Zero innovation network

Future Areas of Focus

Our organisation

Procurement

Waste Management

Training & Job Opportunities

Changing behaviours

How ECC will use the Model

- Repeat baselining exercise across departments
- Analyse results and opportunities in low score areas
- Take inspiration from case studies and solutions
- Strengthen links with businesses and anchor institutions
- Evaluate results and share lessons learnt

Thank you

Jason.searles@essex.gov.uk

THE CIRCULATES TOOL

BLUEPRINT PARTNER, ECOWISE

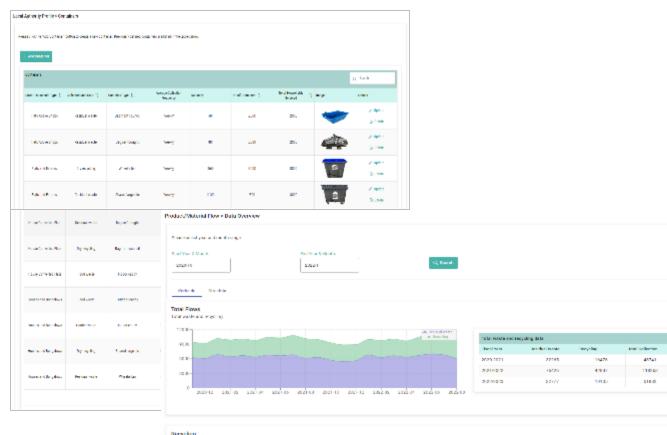

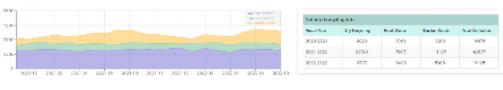

A new online planning, monitoring & evaluation tool for local authorities to work towards a circular economy EcoWise is currently developing CIRCULATES as part of the BLUEPRINT project.

An open & free version of the tool for early adopters will be launched in Q2 2023 for demonstration.

Tailored use for a local authority will require an annual paid license.

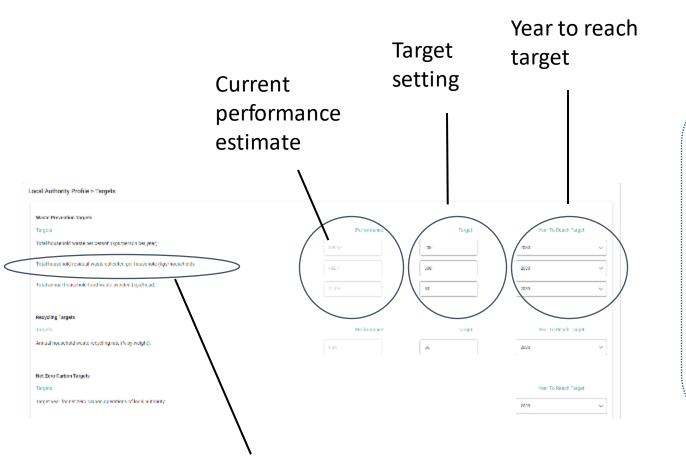

Recycling Bandalifer ydig (dynagolaethau badwaiethau web)

CIRCULATES

Circulates helps to keep track of bins, bags and boxes rolled out and provides a visual overview of collected recycling and wastes per material.

Supporting data management and communications

Circulates allows for quick performance assessments by **setting targets** for recycling and waste prevention, to **compare these with immediate estimates from** collections data.

Example: Total residual waste collected per household per year (kgs/household)

Update key details of your project t	id containers	De	
The project covers the conversion of the or containers for collection Local authorities are provide a range of collection options and salar collections are space are covided with wheel of	responsible for heuseholds ps: Usually all heuseholds	dicollections and can

Local authorities can digitally keep track of their projects/interventions **to improve recycling, increase reuse and prevent waste** with an impacts estimate.

Easy project/intervention creation is supported by our existing library of project examples (for example flats communal bin upgrades, one bag a week challenge).

A project monitoring log is available to record the status of projects.

Assess Programme Impacts

Look at the impacts on reuse, recycling and waste prevention of all the projects in your programme

Overview of Expected Impacts

Total Waste Flows Waste flow impacts (Recycling + Waste disposal) 2022/23 2023/34 2024/25 2025/26 34,000 33,500 Waste - business as usual 40,330 40,845 41,534 42,042 33,000 32,500 Waste - projects reduction 77,843 78,823 76,534 77,992 32,000 31,500 Waste - expected future 118,173 119,668 118,068 120,034 31.000 30,500 30,000 2020/21 2021/22 2022/23 2023/24 2024/25 Waste flows (tonnes) <> Project 1 impact <= Project 2 impact × Project 3 impact **Recycling Flows** Recycling (incl. food waste) Impacts 19,000 2022/23 2023/24 2024/25 2025/26 18,000 17,000 Recycling - business as usual 23,503 23,804 24,205 24,501 16,000 15,000 Bin store upgrades 7,669 7,766 7,898 7,994 14,000 13,000 Food campaign 9,158 9,275 9,431 9,547 12,000 Total future 40.330 40.845 41.534 42.042 11,000 10.000 2020/21 2021/22 2022/23 2023/24 2024/25 ■Recycling tonnes ■ Project 3 ■ Project 4 ■ Project 5 ■ Project 6

2025/26

2026/27

2026/27

Combined impacts across projects / interventions are calculated to evaluate the change to waste arising in the next five years.

To assess if all projects / interventions together are in line with reaching local authority targets.

Listed projects / intervention in a programme can be used for **planning and budgeting purposes,** as well as for reporting progress to **monitor and evaluate** projects in the implementation phase.

Priority future developments include:

- Benchmarking per project / intervention type across local authorities
 - Carbon emissions impacts assessments
